

Technical Assessment: Jennifer Seery

Front End Tech Used:

Bootstrap - HTML, CSS, JavaScript & Gulp

Backend - Hosted a mock backend api as I was unfamiliar with the wordpress api.

Link to backend- <https://api.jsonbin.io/b/5bfc469299d3ae6554912e45/1>

Screenshots of the GUI on my end as I was unsure about what screen sizes to support.
